Financial Results Highlights (2Q FY2025/12)

Consolidated Results	<p>Net sales increased, driven by strong performance across our three core segments, and operating profit returned to profitability as the effects of structural reforms</p> <p>Net sales: 37.9 billion yen +13.1% YoY</p> <p>Operating profit: 2.1 billion yen +2.2 billion yen YoY</p>
Machine tool	<p>Net sales increased due to higher unit volumes, while profit grew, reflecting improved profitability driven by structural reforms</p> <p>Net sales: 27.8 billion yen +11.9% YoY</p> <p>Segment profit: 3.0 billion yen +2.1 billion yen YoY</p>
Industrial machinery	<p>Number of sales volume increased driven by strong demand for optical connectors, but profit decreased as a result of higher SG&A expenses</p> <p>Net sales: 4.7 billion yen +6.7% YoY</p> <p>Segment profit: 0.1 billion yen -0.1 billion yen YoY</p>
Food machinery	<p>Strong demand for cooked rice and noodle production systems in Japan and abroad drove growth in both net sales and profit.</p> <p>Net sales: 2.7 billion yen +75.6% YoY</p> <p>Segment profit: 0.3 billion yen +0.3 billion yen YoY</p>
Others	<p>Net sales declined due to mold forming business slowdown, but profit returned to profitability as the effects of structural reforms</p> <p>Net sales: 2.6 billion yen - 1.9% YoY</p> <p>Segment profit: 0.1 billion yen +0.2 billion yen YoY</p>

* The adjustment amount for segment profit: - 1.5 billion yen

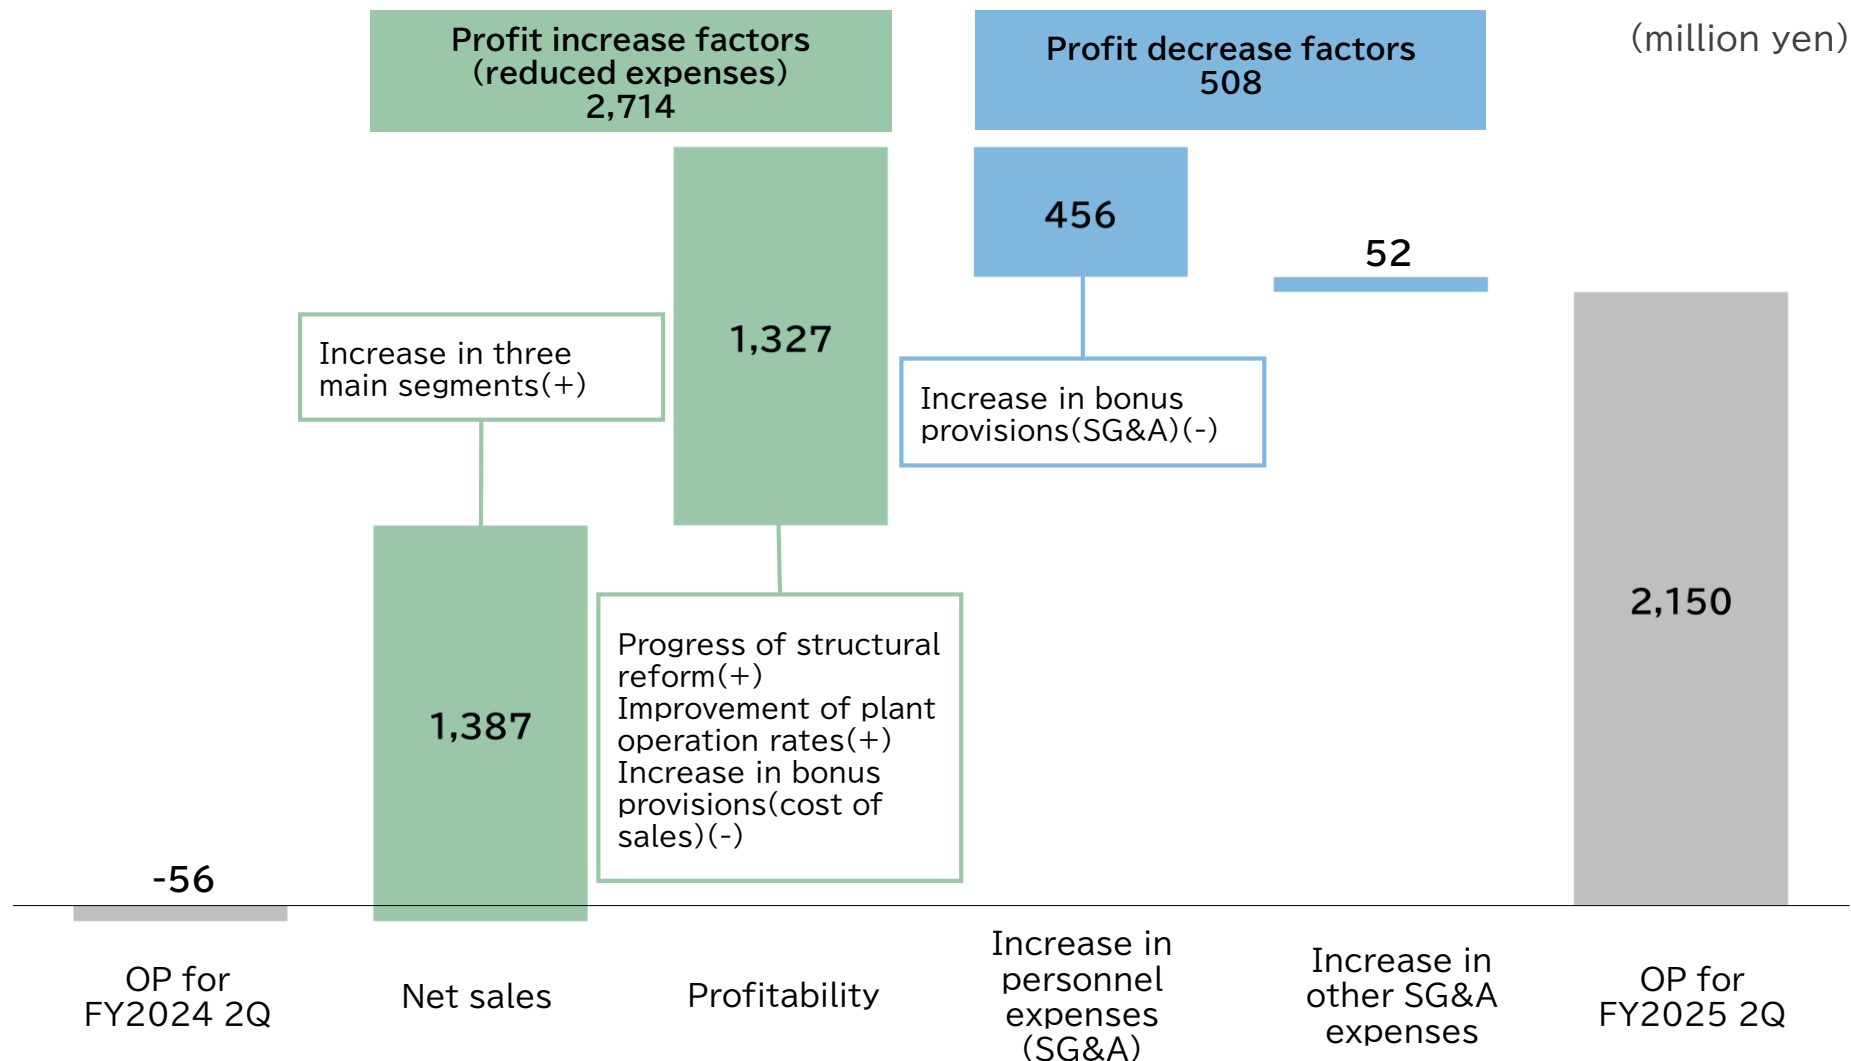

Financial Results Summary (2Q FY2025/12)

- ✓ Net sales increased by 13.1% YoY, driven by the solid performance of machine tool, industrial machinery and food machinery segments.
- ✓ Operating profit returned to profitability, as gross profit increased due to higher sales and the effects of structural reforms, despite an increase in SG&A expenses resulting from additional bonus provisions.
- ✓ Although non-operating expenses increased due to a foreign exchange loss of 0.7 billion yen, net income for the period rose 36.0% YoY.

(million yen)	FY2022 2Q	FY2023 2Q	FY2024 2Q	FY2025 2Q	YoY
Net sales	39,317	33,479	33,594	37,980	13.1%
Gross profit	13,140	10,242	10,626	13,342	25.6%

Average rate during the period					
USD/JPY	123.14	135.00	152.36	148.40	3.96 up
EUR/JPY	134.39	145.93	164.70	162.25	2.45 up
CNH/JPY	18.91	19.45	21.04	20.45	0.59 up
THB/JPY	3.65	3.95	4.21	4.43	0.22 down

Analysis on Change in Operating Profit / Loss

- ✓ In addition to the effect of increased sales, progress in structural reforms led to improved profitability, resulting in a significant YoY increase in gross profit. (Gross profit margin improved by 3.5% YoY.)
- ✓ SG&A expenses increased YoY due to increased in bonus provisions and other factors, but operating profit rose by approximately 2.2 billion yen.

Financial Results by Segment

Machine Tool Segment

Net sales

Japan: Automobile-related demand remained sluggish. The connectors and electronic components, aerospace, medical and energy-related remained robust.

Greater China: Demand for NEV vehicles, smartphones, and optical connectors for data centers and electronic components remained robust.

Asia: Overall market remained robust. Especially, demand for semiconductors in South Korea and automobile-related demand in Thai, toy-related demand in Vietnam remained robust.

North and South America: Automobile-related demand remained weak. Demand for AI-related electronic, aerospace and medical device components remained robust.

Europe: Aerospace, medical device and energy-related components remained robust.

Profit

Segment profit increased due to consolidation of production in China, workforce optimization, and improved plant operation rates

(million yen)	FY2024 2Q	FY2025 2Q	YoY	
Net sales	24,876	27,847	2,971	11.9%
Segment profit	965	3,071	2,106	218.1%

Profit margin 3.9% **11.0%**

Financial Results by Segment

■Industrial Machinery Segment

Net sales

Japan: Demand for data center optical connectors, smartphone and contact lenses remained robust.

Greater China: Automobile-related demand remained weak, and optical connector demand remained robust.

Asia: Demand for mobile connectors remained robust (South Korea).

North America: Demand for optical connectors remained robust.

Profit

Segment profit decreased due to an increase in personnel expenses and a review of expenses associated with organizational changes.

(million yen)	FY2024 2Q	FY2025 2Q	YoY	
Net sales	4,432	4,730	298	6.7%

---------------	-----	------	-----	-----	-----	---	---	---	-----	-----	------	------	-----	-----	--	--

Financial Results by Segment

■ Food Machinery Segment

Net sales

Demand for noodle making machine-related equipment and aseptically-packaged cooked rice production systems domestic and overseas remained robust.

Demand for replacement of noodle making equipment continued in Japan.

Demand for fresh noodles and cooked rice continues in Greater China, South Korea, and Southeast Asia.

Profit

Segment profit improved due to increased net sales

(million yen)	FY2024 2Q	FY2025 2Q	YoY	
Net sales	1,548	2,718	1,170	75.6%
Segment profit	7	354	347	4,788.7%
Profit margin	0.5%	13.0%

Financial Results by Segment

■ Other Segments

(Precision dies and mold operations involving the contract manufacturing of precision connectors and other products; and elemental technology operations involving the sale of linear motors, ceramics products, and LED floodlights, etc.)

Net sales	Mold operations: Although demand for automobile-related businesses, which are our main customers, has been slowing in regions other than Greater China, we have secured a certain level of operation. Ceramics and LED: Both the semiconductor and LED industries are on a recovery trend. However, net sales slightly decreased due to postponed sales.			
	Return to profitability due to progress in structural reform, etc.			

(million yen)	FY2024 2Q	FY2025 2Q	YoY	
Net sales	2,737	2,684	-53	-1.9%
Segment profit	-90	138	228	-
Profit margin	-3.3%	5.1%

(0.1 billion yen) Trends in JMTBA Machine Tool Orders (amount) and Sodick EDM Orders (units)

Trends in Sodick EDMs Order Volume by Region (Quarterly)**Sodick**

Europe

Aerospace, medical device and energy-related components remained robust.

North and South America

Automobile-related demand remained weak. Demand for AI-related electronic, aerospace and medical device components remained robust.

Greater China

Demand for NEV vehicles, smartphones, and optical connectors and electronic components for data centers remained robust.

Japan

Automobile-related demand remained sluggish. The connectors and electronic components, aerospace, medical and energy-related remained robust.

Asia

Overall market remained robust. Demand for semiconductors in South Korea and automobile-related demand in Thai remained robust.

FY2025/12 Full-year Financial Results Projections **Sodick**

- ✓ Due to high uncertainty surrounding the future market environment, concerns remain regarding sustained demand in Greater China and the impact of U.S. tariff policy, the initial full-year plan was left unchanged.
- ✓ We will continue to steadily advance structural reforms across the group to improve profitability.

(million yen)	FY2022	FY2023	FY2024	FY2025		
				Planned (Feb. 13)	2Q Actual	Progress rate
Net sales	80,495	67,174	73,668	77,400	37,980	49.1%

FY2025/12 Full-year Financial Results Projections (by Segment) **Sodick**

- ✓ Machine tool: Operating profit has progressed better than initially planned due to structural reforms and cost reductions
- ✓ Industrial machinery: While demand for optical connectors remains robust, continued weakness in automobile-related demand has led to delays in progress.
- ✓ Food machinery: Although slow progress in the first half, sales of both noodle making machines and cooked rice production systems are expected to increase in the second half

(million yen)	FY2022	FY2023	FY2024	FY2025		
				Planned (Feb. 13)	2Q Actual	Progress rate
Machine tool segment	56,492	46,706	51,355	53,000	27,847	52.5%
Industrial machinery segment	10,656	8,630	9,560	10,800	4,730	43.8%

Medium-term Management Plan

External environment

Goals

We contribute to a sustainable society through manufacturing by further developing our own technologies and promoting application development to new product groups.

Medium-term Management Plan 2025-2027

- Promote business structural reforms
- Strengthen the structure for stable revenue
- Create growth drivers

(100 million yen)

	2024 Actual	2027 Target	2024 → 2027
Net sales	736	885	+6.3%/year
Operating profit	22	70	+46.4%/year
OP margin	3.0%	7.9%	+4.9pt
PBR	0.4times	1.0times	+0.6pt
ROE	5.1%	8.0%	+2.9pt

Long-term vision for further advancement

- Optimize the business portfolio
- Strengthen global management
- Advance sustainability management

Machine tool segment

- Optimize production scale in China
- Global production system adapted to foreign exchange environment (Kaga, Thailand, China)
- Reduce fixed costs, through personnel optimization, etc.

Industrial machinery segment

- Returning to domestic production
- Shift sales to high-value added models
- Provide automation solutions
- Full-scale sales activities in the European market

Food machinery segment

- Expanding sales by strengthening overseas sales structure
- Saving energy, enhancing productivity, making products smaller and more functional
- Expand business scale through development of new food machinery etc.

Action to Implement Management that is Conscious of Cost of Capital and Stock Price

Return on equity (ROE)

- ROE has been low since 2022, falling below the target of 8%.
- Although profit margins have recovered recently, they remain at low levels
- Equity capital also increased mainly due to depreciation of Japanese yen, making it difficult for ROE to rise

ROE: Full-year net income (loss) / Equity capital (average at the beginning and end of period)

*For fiscal 2025, figures are annualized as of the end of June 2025.

Market valuation (PBR)

- PBR has remained below 1 for seven years, hovering at a low level
- Stock prices remain low
- Net assets also increased mainly due to depreciation of Japanese yen, making it difficult for PBR to rise.

PBR: Year-end* stock price / Year-end* net assets per share

*For fiscal 2025, figures are as of the end of June 2025.

Efforts to improve return on equity

Improvement of profitability

Promote structural reforms
Business expansion through M&A
Develop new products

Improvement of asset efficiency

Inventory compression
Liquidate idle assets

Optimization of financial base

Global cash management
Optimize capital allocation

Efforts to improve market valuation

Strengthen shareholder returns

Stable dividends with DOE of 2.0% or higher and total return ratio of 40% or more

Promotion of sustainability

Efforts to achieve KPIs for the four materiality issues

Strengthening corporate governance

Revise the composition of the Board of Directors
Develop next-generation leaders

Promotion of IR/SR activities

Strengthen constructive dialogue with investors
Enhance disclosure in English for overseas investors
Enhance non-financial information disclosure

Progress in Structural Reforms

Initiatives for Business Growth

~Acquisition of Prima Additive S.r.l. to Growth and Develop Our Metal 3D Printer Business~

Sodick

Overview of Prima Additive

(1)Name	Prima Additive S.r.l
(2)Address	Turin, Italy
(3)Name of Representative	CEO Paolo Calefati
(4)Description of Businesses	Mainly engaged in 3D printer manufacturing and sales
(5)Capital	117 thousand EUR
(6)Major shareholders and percentage of shares	9.5% ➔ 94.35%(May 9, 2025)

To make a significant leap forward in the rapidly growing metal 3D printing industry, we have acquired Prima Additive, anticipating strong synergies across industrial sectors, product portfolios, and sales regions.

Expand industrial sectors

Sodick
Mainly mold processing

Prima Additive
Parts processing
(aerospace, automotive, energy, oil, gas, electricity, jewelry, medical and marine, etc.)

Strengthen sales network

~Business Alliance with Advantage Advisors (currently Advantage Partners) and Fundraising~

Overview of Business Alliance

ADVANTAGE
PARTNERS

Our Priority Measures

Enhanced management control

Global expansion
(Reducing dependence on China)

Strengthening solution business

New business creation with Metal 3D printers and Laser processing machines

High value-added to meet industry needs

Value Proposition

- Data-based analytical skills
- Advanced portfolio management expertise

Abundant business network including Asia locations

Strength in planning and executing new measures for value-creation

Ability to lead new business creation, including driving M&A initiatives

Extensive experience in multi-sector investments and accumulated market knowledge

Overview of Fundraising and Use of the Proceeds

	Convertible Bonds with Share Subscription Rights	Share Subscription Rights
Issuance date	August 4, 2025	
Amount of funds to be acquired	approx. 8 billion yen	approx. 2 billion yen
Maturity	5 years	-
Convertible / Exercise period	5 years from the subscription date In principle, non-convertible until six months after the day following the subscription date.	
Convertible / Exercise price	931 yen In principle, conversion (or exercise) is permitted only when the market price exceeds 120% of the conversion (or exercise) price. However, this does not apply after the business alliance period ends.	
Interest rate	0%	-

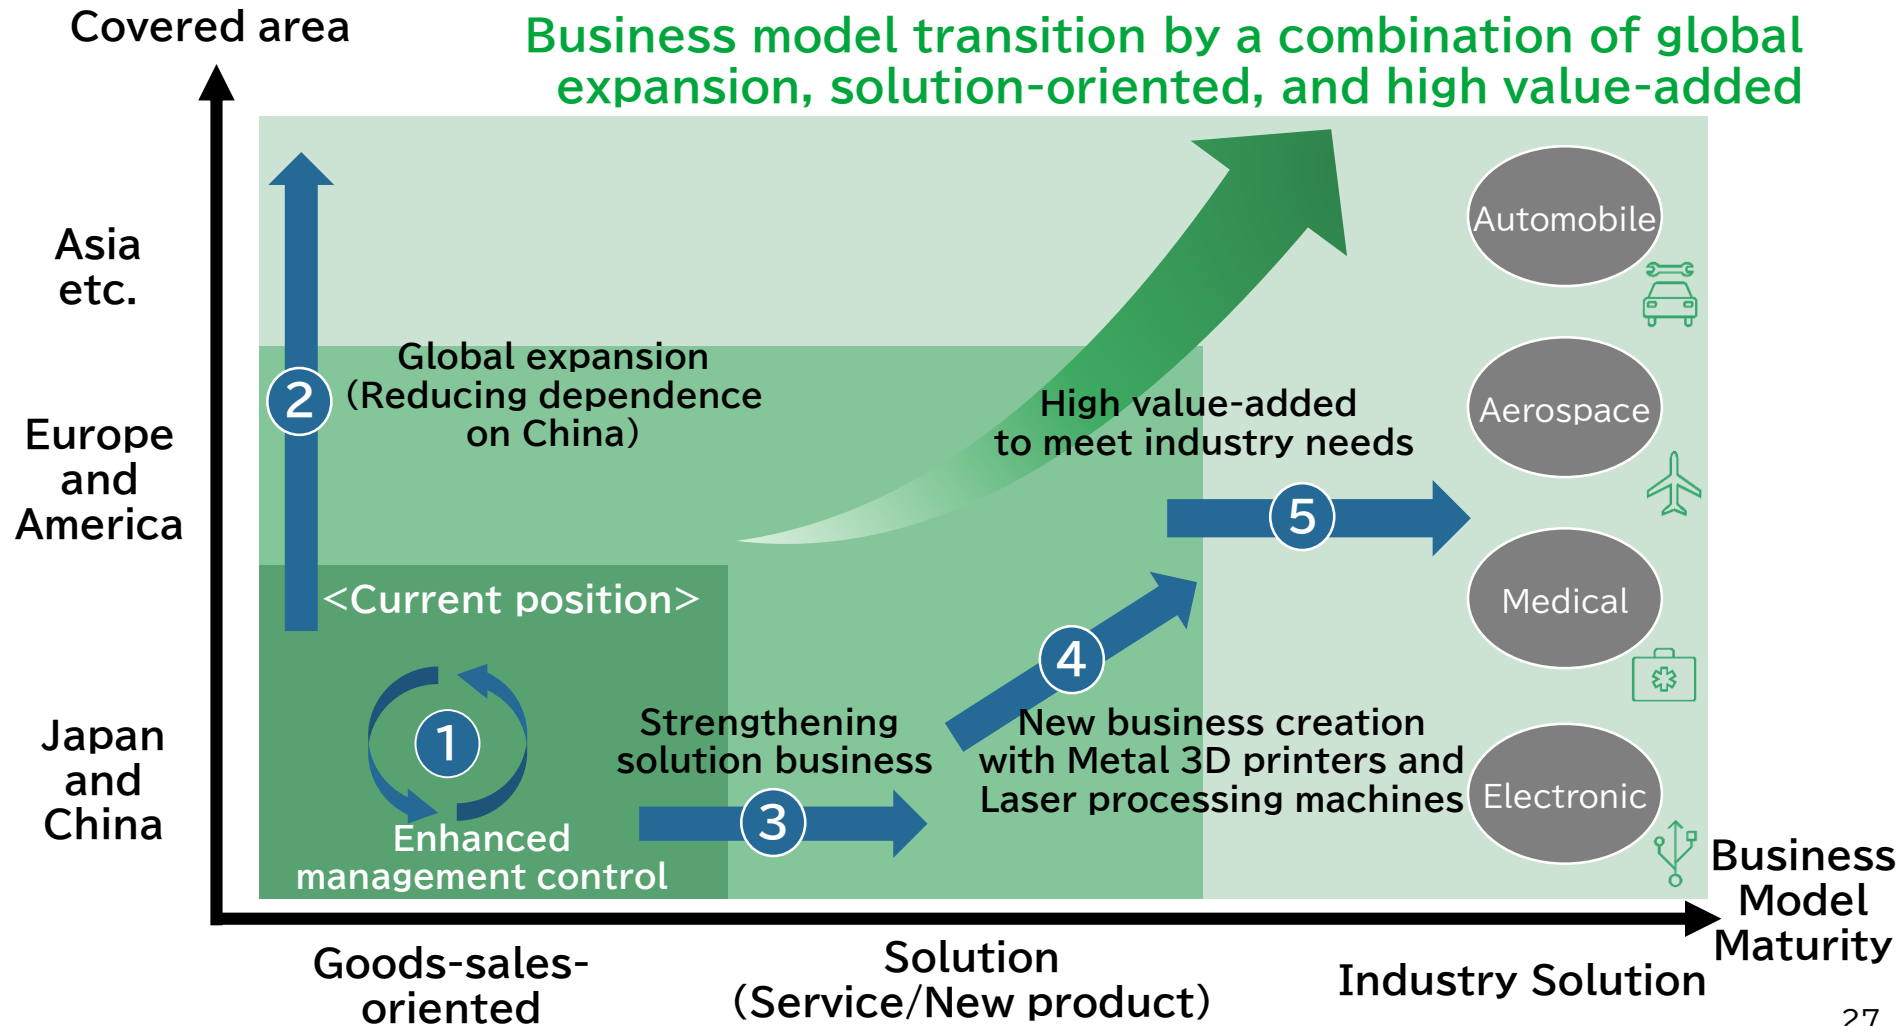

Use of the Proceeds	Size of funds
Promotion of global expansion	3 billion yen
M&A to grow the business	4 billion yen
Other growth acceleration strategic investments (Investments in digital transformation (DX), human capital, and other infrastructure enhancements)	3 billion yen

Initiatives for Business Growth

~Business Alliance with Advantage Advisors (currently Advantage Partners) and Fundraising~

With a stabilized revenue base through enhanced management control, we are shifting toward a global expansion, solution-oriented, and high value-added business model.

Main Themes and Concerns Discussed in the Dialogue

- Progress on structural reforms and medium-term management plans
- Economic recovery and demand trends in Greater China
- Growth strategies by industry and region
- Initiatives and growth strategies to strengthen after-sales service
- Measures and initiatives to improve PBR

Dialogue

Appendix

1. Trends in Financial Results
2. Trends in Indexes
3. Trends in Financial Results by Segment
4. Numbers of Sodick EDMs Ordered and Sold
5. Overseas Sales Ratio by Segment
6. Maintenance Service and Sales of Consumables Ratio
7. Composition of Segments and Key Products
8. New product released in 2025 2Q
9. Exhibition Information

Composition of Segments and Key Products

Segment	Machine tools		Industrial machinery	Food machinery
Major products	<p>Die-sinker EDM</p>  <p>Small-hole drilling EDM</p>  <p>Machining center</p> 	<p>Wire-cut EDM</p>  <p>Metal 3D printer</p>  <p>Laser processing machine</p> 	<p>Horizontal injection molding machine</p>  <p>Vertical injection molding machine</p>  <p>Light metal injection molding machine</p> 	<p>Noodle making machines (noodle production line)</p>   <p>Aseptically-packaged cooked rice production system</p> <p>*Part of the production line</p>  <p>Other food processing machines</p>  
Sales market	Automotive, home appliances, electrical and electronic devices, aerospace, medical devices, energy, etc.		Automotive, electrical and electronic devices, medical devices, etc.	Noodle making (chilled noodles, Long-life noodles, frozen noodles, etc.), packaged cooked rice, confectionery/bread, Japanese-style deli dishes, vegetable processing, etc.
Production sites	 Kaga  Amoy	 Thailand  Suzhou	 Kaga  Thailand	 Kaga  Amoy

Machine tool segment

Linear motor drive ultra-precision wire-cut EDM **EXC100L+**

- ✓ Responding to the need for ultra-precision machining at the nanoscale
- ✓ Reducing power consumption by 25% through optimization of processing fluid control
- ✓ Automatically creating optimal processing conditions
- ✓ Contributing to significant unmanned and labor-saving operations
- ✓ Combination of our ceramic air sliders and linear motors enables ultra-precision machining

Automatic Conductive Piece Shifter **ACPS**

- ✓ Achieving long-term continuous operation of wire-cut EDM machines
- ✓ Eliminating maintenance space constraints to facilitate installation of large workpieces
- ✓ Avoiding processing problems caused by maintenance failures

Powder material for metal 3D printer **HYPER21**

- ✓ Powder material for improving the precision of machined surface finish
- ✓ Improving machinability while releasing residual stress

Food machinery segment

Continuous vacuum cooling equipment 2025

- ✓ Rapidly and uniformly cool bread, rice, precooked side dishes, etc. after heating.
- ✓ Fully automated operations achieve high hygiene levels and labor savings
- ✓ Ensuring food safety and resolving labor shortages

Exhibition Information

Sodick

■ Exhibition at FOOMA JAPAN 2025

- The world's largest comprehensive food manufacturing exhibition, featuring cutting-edge technologies and products from around the world
- Under the theme of "Sodick: Creating the Future of Food," we showcased our main products and latest machines on the largest scale ever
- Through demonstrations, we highlighted our automation and labor-saving solutions

Overview of FOOMA JAPAN 2025

Period: June 10-13, 2025 (4 days)

Venue: Tokyo Big Sight

Visitors 110,827

Main exhibited machines: Continuous vacuum cooling equipment, aseptically-packaged cooked rice production systems, moisture rate monitor for food, vacuum kneader, vacuum Z-kneader, three-roll sheeter, (dough forming for noodles, bread and sweets), upward-facing tray de-breading machine, and next-generation meat substitute production equipment

■ Entitled "Sodick's Latest Technology 'SENTAN' Product Introduction 2025," a private show was held at Kaga Factory

- Comprehensively introduced our extensive product lineup at its showroom
- Promoted comprehensive solutions tailored to various needs, centered on automation systems
- Held a lottery sale of company-owned machines exclusively for visitors.

Sodick's Latest Technology 'SENTAN' Product Introduction 2025

Period: May 22-23, 2025 (2 days)

Venue: Kaga Factory, Sodick Co., Ltd. (Ishikawa Prefecture)

Visitors: 1,005

Main exhibited machines: Machining center GS540L, AMR automation systems (die-sinker EDM AL40G+, and wire-cut EDM AX350 L iG+E), MT-ferrule production systems (small-hole drilling EDM K3BL, ultra-precision wire-cut EDM EXC100L+, and injection molding machine LP20EH4)

Exhibition Information

■ Exhibited at CIMT 2025 (China)

- China's largest and one of the world's largest machine tool fair
- Demonstrated our deepening technical capabilities and application capabilities through exhibiting conventional models with new features
- Introduced automation and labor-saving initiatives through demonstrations

Overview of CIMT (The 19th China International Machine Tool Show) 2025

Period: April 21-26, 2025 (6 days)

Venue: China International Exhibition Center (Beijing)

Visitors: Unannounced (154,957 in 2023)

Main exhibited machines: Wire-cut EDM VN400Qs,
die-sinker EDM AL60Gs and many others

■ Exhibited at EXPOMAFE 2025 (Brazil)

- Brazil's largest machine tool exhibition
- Shifted the content of our exhibition from conventional general-purpose models to high-precision models to showcase our technological innovation
- Increased our presence in promising South American markets such as Brazil, Argentina, and Peru.

Overview of EXPOMAFE 2025

Period: May 6-10, 2025 (5 days)

Venue: São Paulo Expo (Sao Paulo)

Visitors: 65,000

Main exhibited machines: Wire-cut EDMAL400P iG+E, and
die-sinker EDM AL60G+
